Vision, Mission & Values

Vision

To be the most trusted infrastructure partner.

Mission

Precision engineering through innovation.

Core Values: Integrity, Quality, Innovation, Commitment, Safety, Client Satisfaction.

Certifications & Registrations

- ISO 9001:2015
- MSME Registration
- DPIIT Startup Recognition
- PAN / GST
- Professional Tax
- ESIC & EPF

Our Service Portfolio

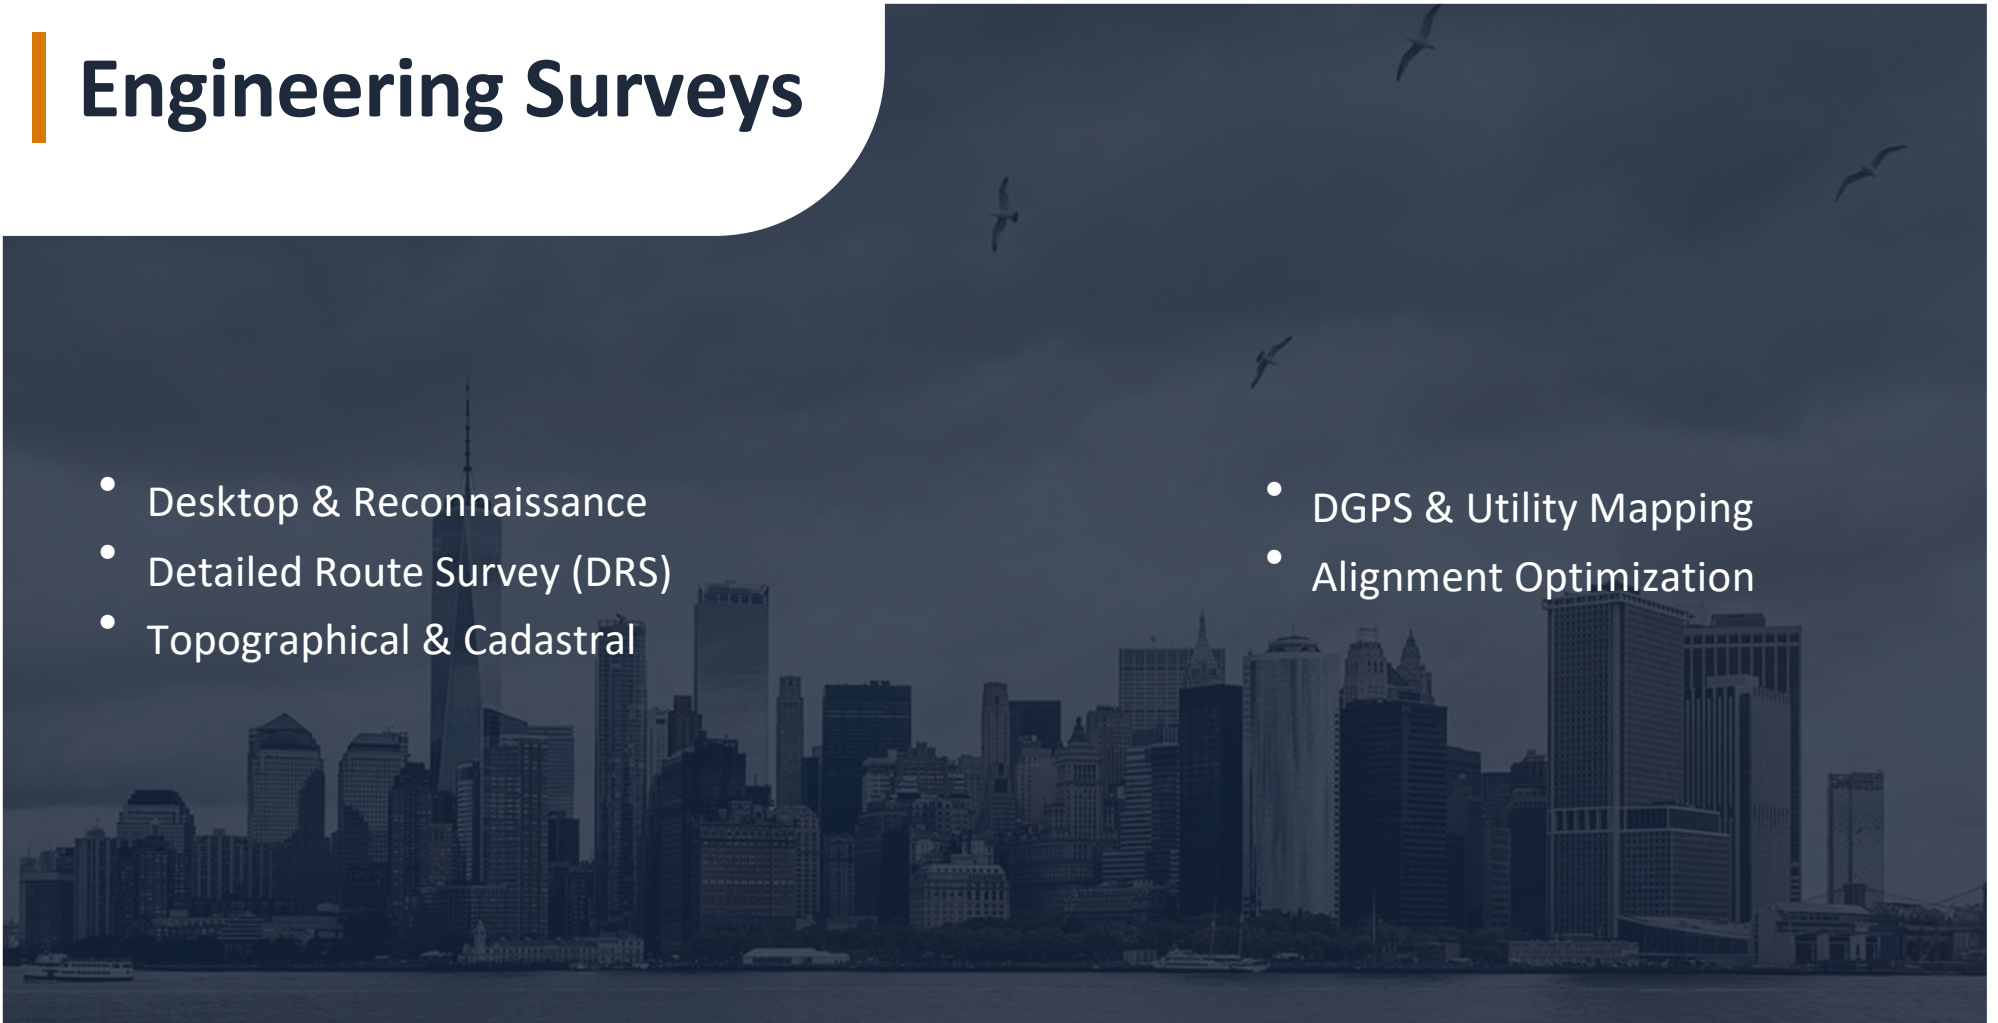

- Engineering Survey
- Geotechnical Investigation
- GIS Solutions
- Land Acquisition

- ROU/ROW Management
- Statutory Clearances
- Digital Engineering
- IT Support

Engineering Surveys

- Desktop & Reconnaissance
- Detailed Route Survey (DRS)
- Topographical & Cadastral

- DGPS & Utility Mapping
- Alignment Optimization

Advanced Survey Technologies

- Drone Survey & Aerial Mapping
- LiDAR & Remote Sensing
- Ground Penetrating Radar (GPR)
- 3D Terrain Modelling

Geotechnical Investigation

Subsoil Investigation, Borehole Drilling, SPT, Soil Stratification, Rock Investigation, Foundation & Material Testing, Hydrological Studies.

HDD Crossing Investigation

River Crossing, Scour Analysis, Hydrological Survey, Feasibility Studies (Mahanadi River Case Study).

Soil Resistivity & Corrosion

- Pipeline Corrosion Assessment
- Cathodic Protection Inputs
- Electrical Resistivity Testing

| Land Acquisition Services

- Identification & Verification
- Negotiation & Compensation

- Mutation Support
- Stakeholder Management

ROU / ROW Management

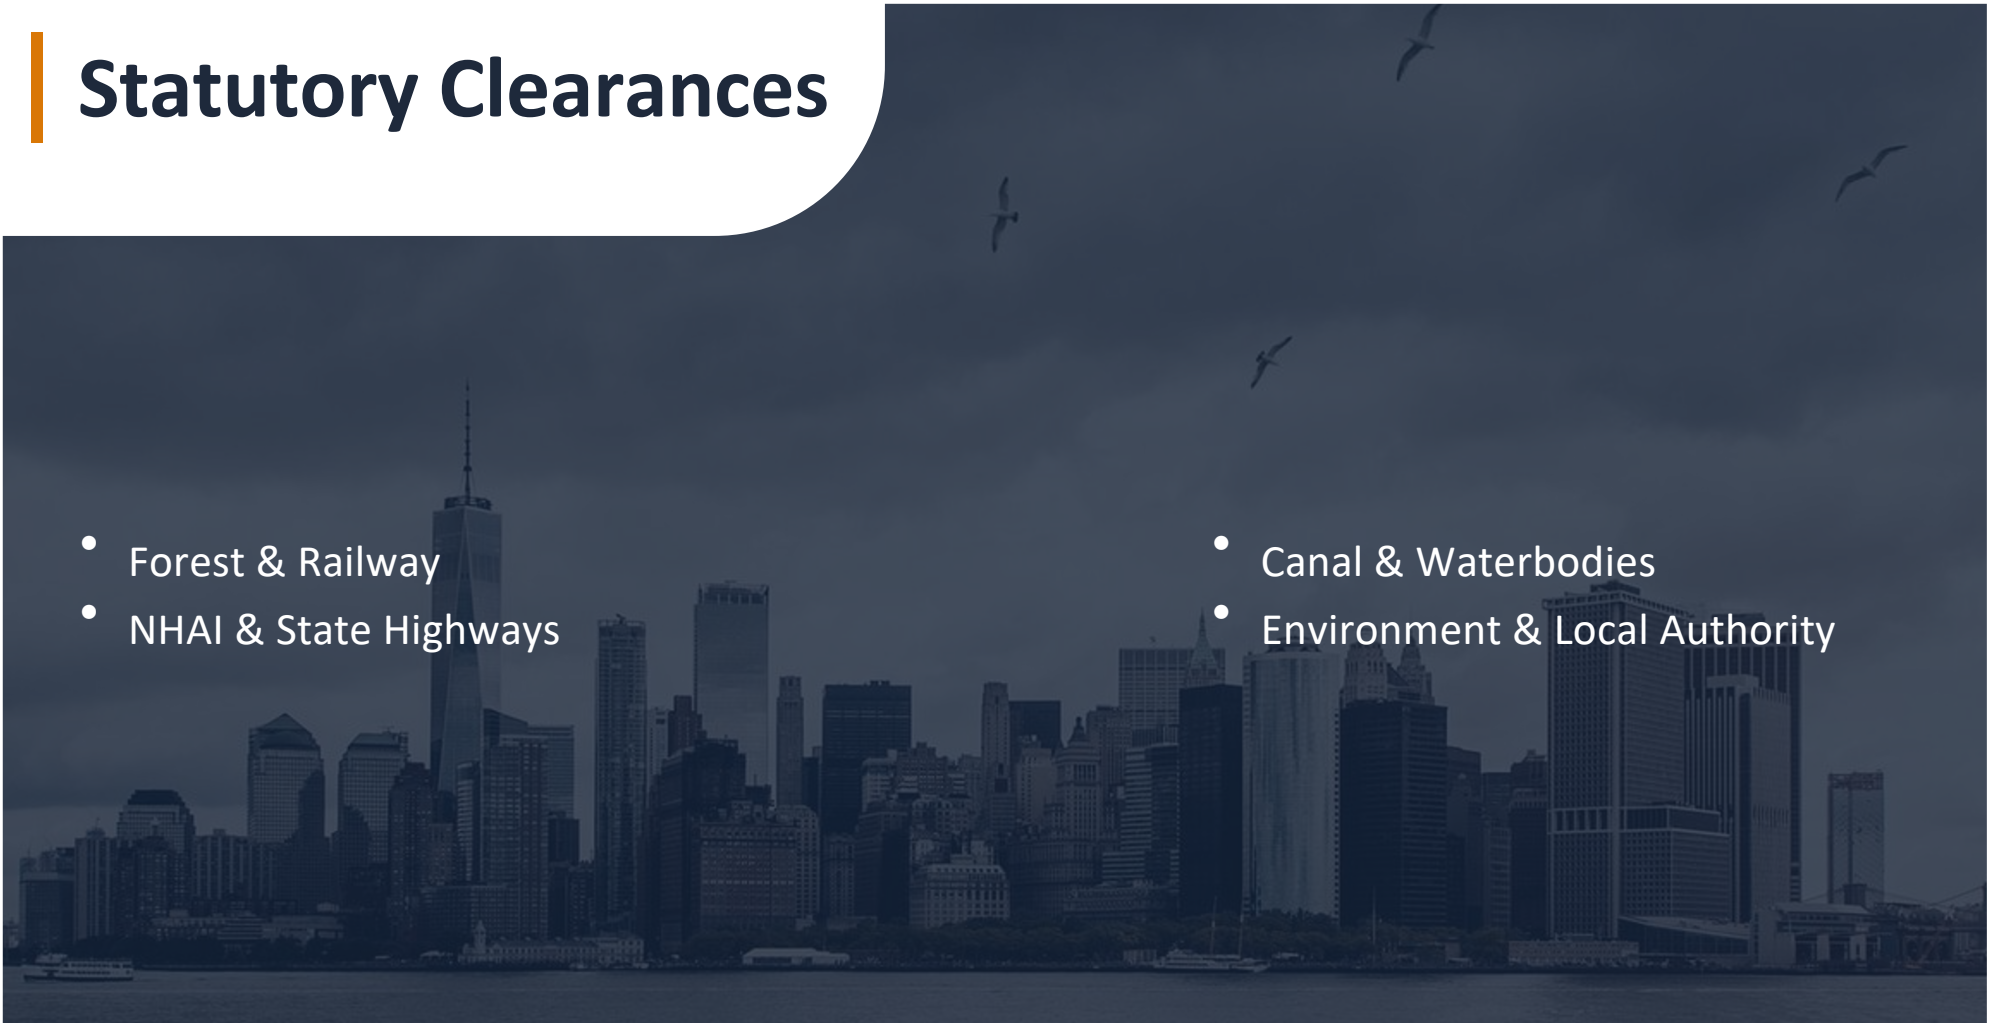

- Pipeline & Transmission Corridors
- P&MP Act 1962 Compliances
- Dispute Resolution & Documentation

Statutory Clearances

- Forest & Railway
- NHAI & State Highways

- Canal & Waterbodies
- Environment & Local Authority

GIS & Web GIS Solutions

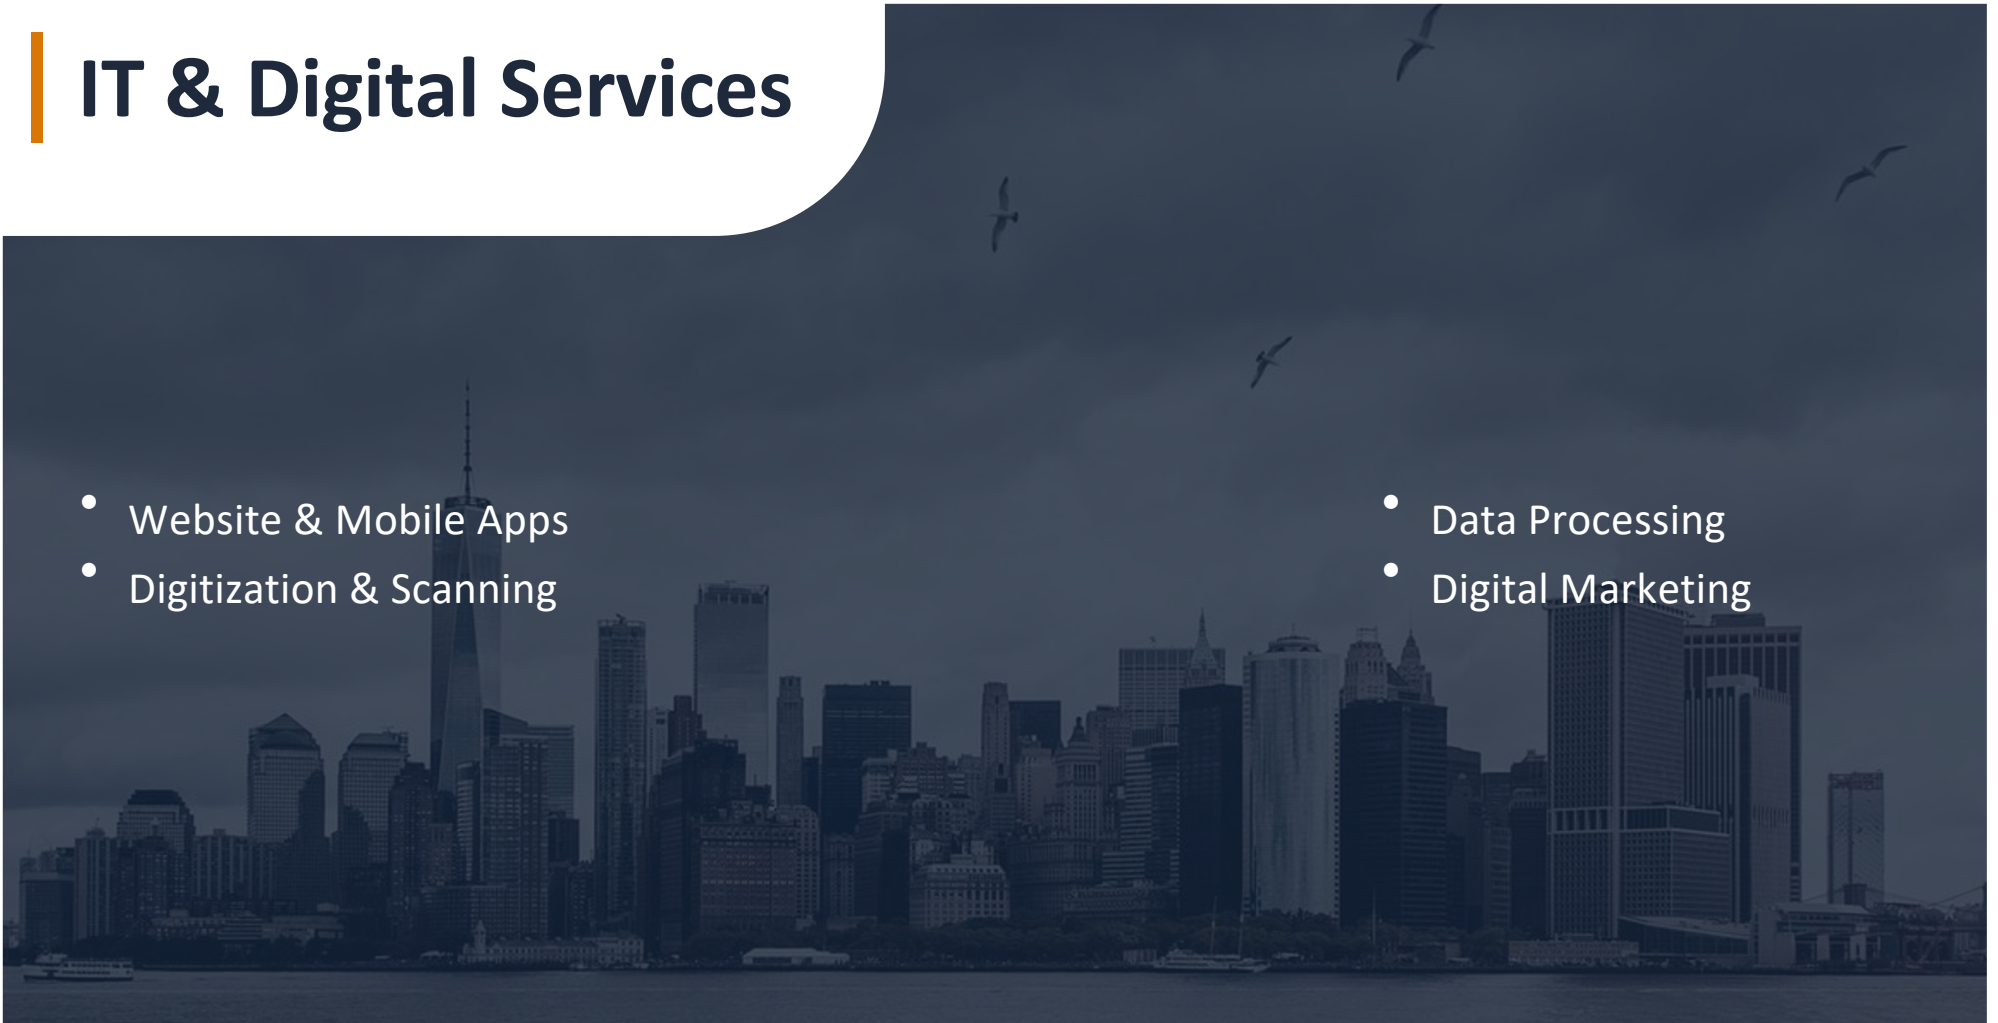

Database Creation, Asset Mapping, PIMS (Pipeline Information Management Systems), Web GIS & Digital Mapping.

| IT & Digital Services

- Website & Mobile Apps
- Digitization & Scanning

- Data Processing
- Digital Marketing

Material Testing Support

Associated with NABL-accredited facilities for soil, rock, and construction material testing to meet client specifications.

| Equipment Infrastructure

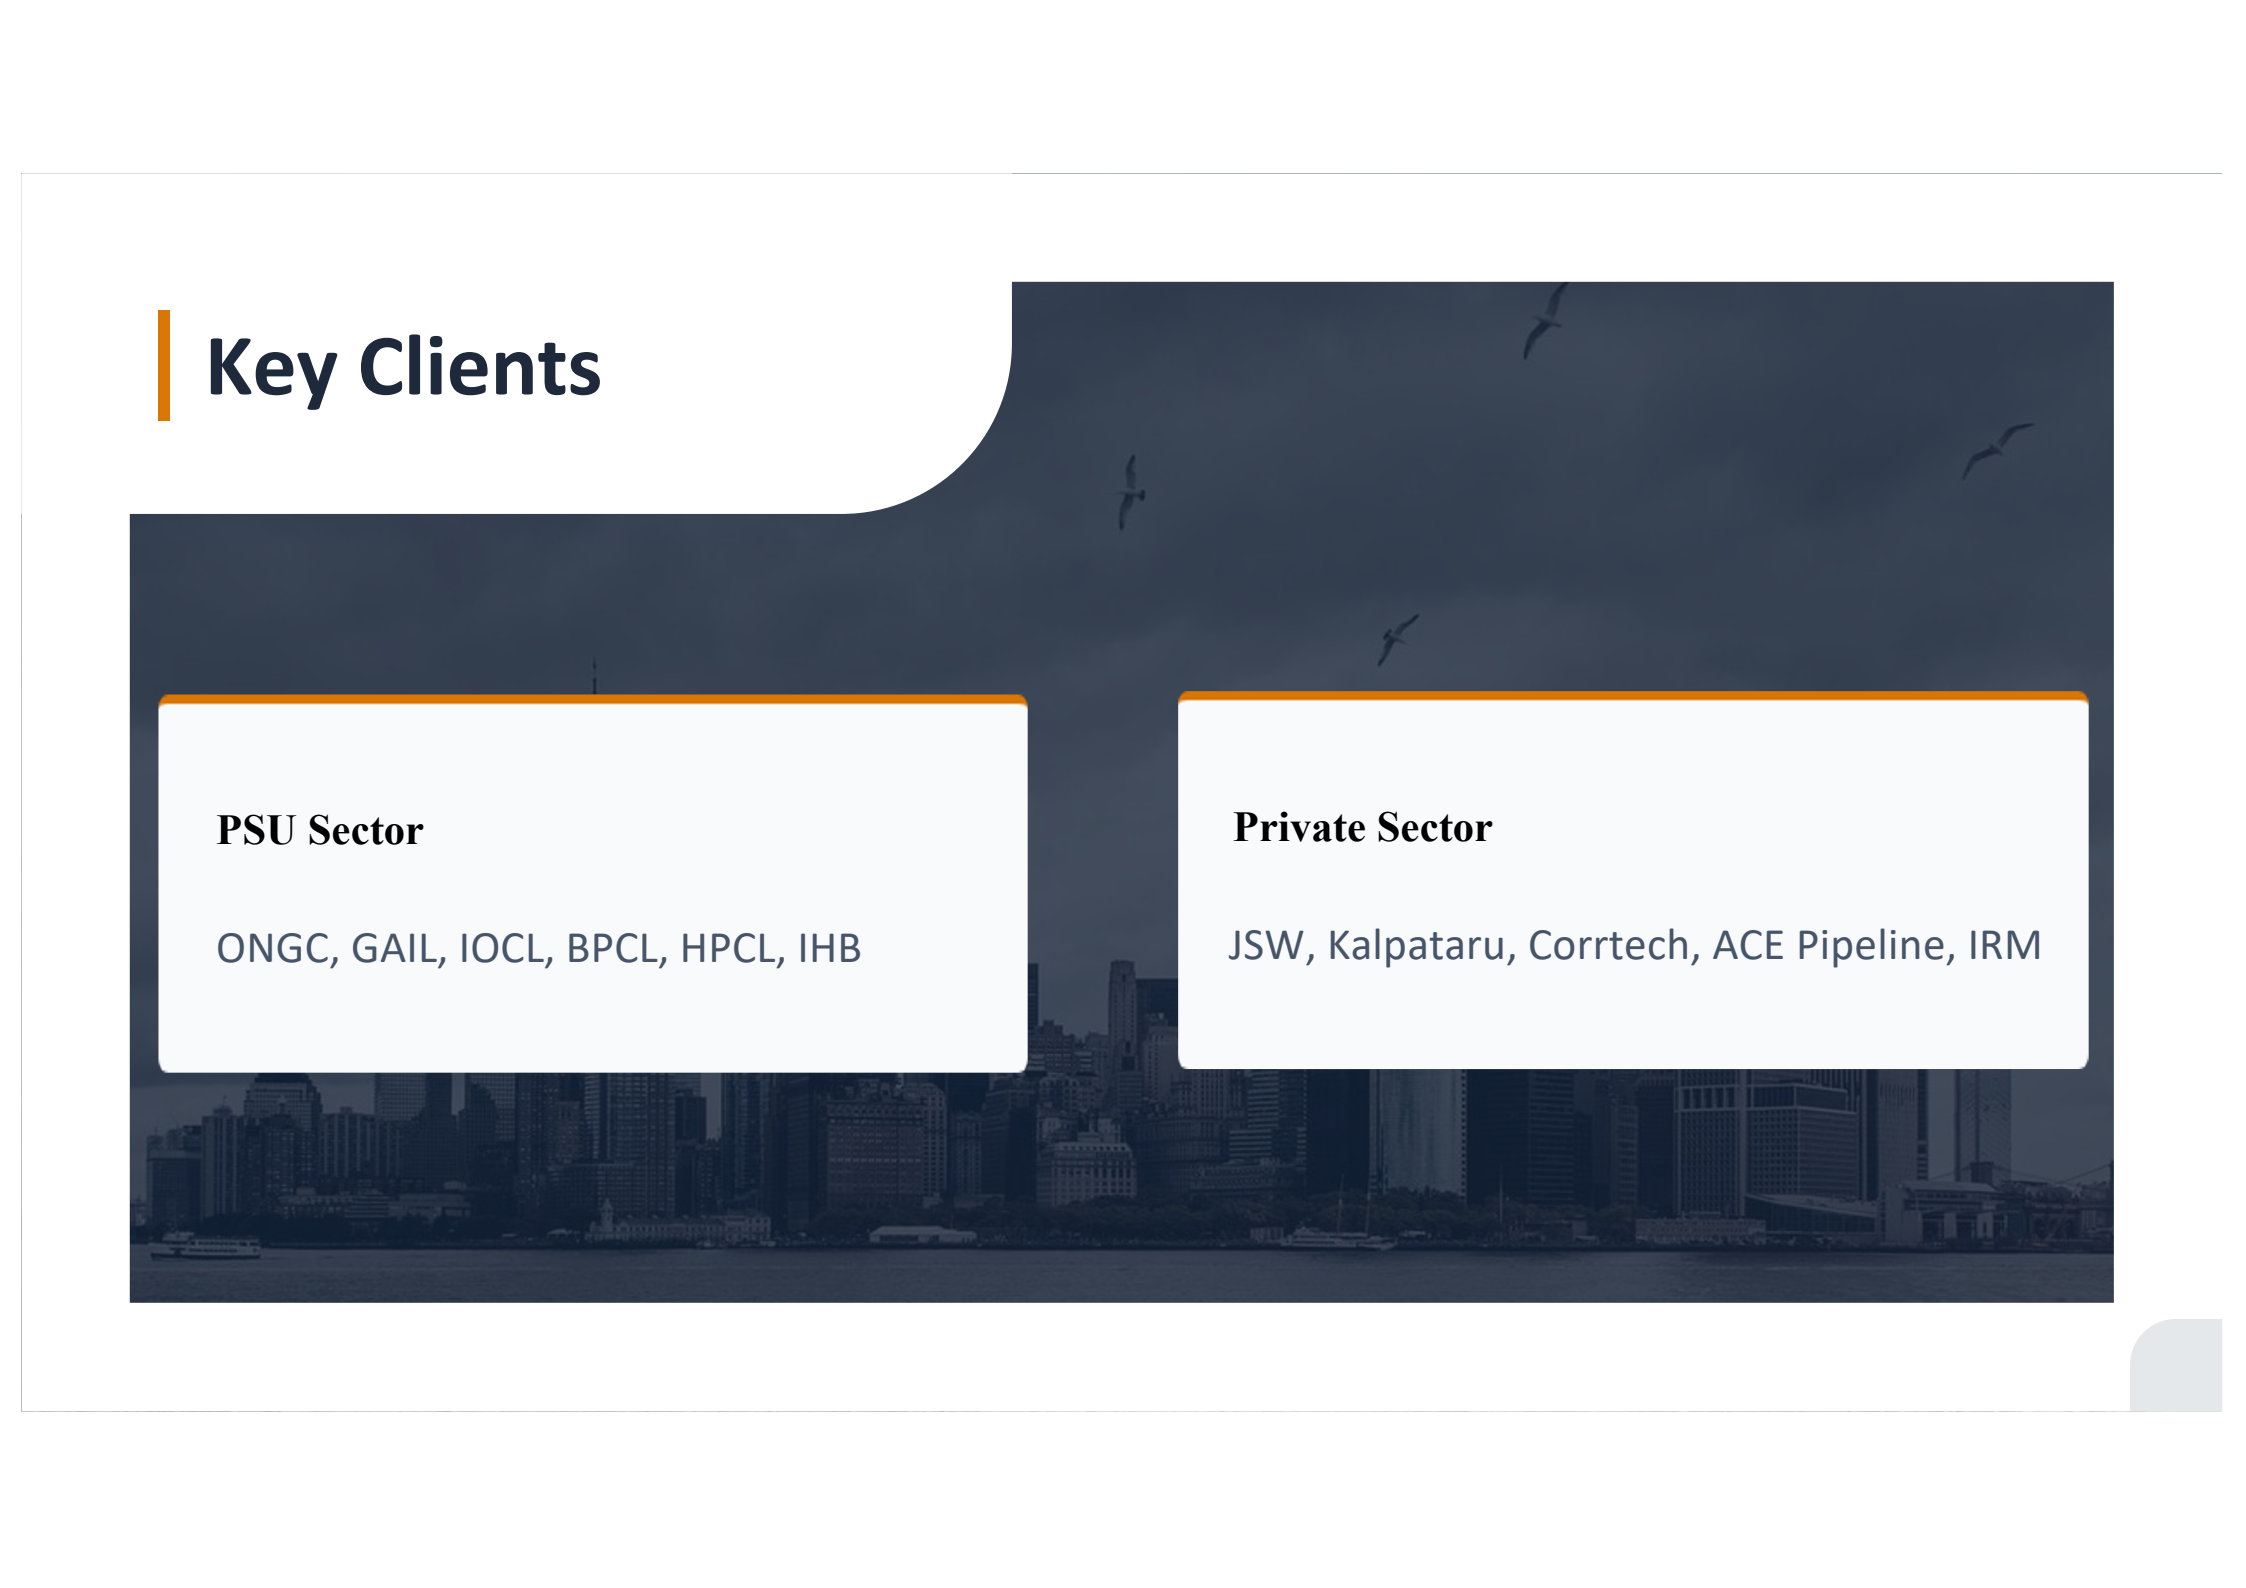

DGPS, Total Stations, GPS, GPR, Pipeline Locator, Resistivity Meters, Shell & Auger, Calyx Drilling Rigs, High-End Computing Workstations.

| Vehicle Fleet

Strong field capability with a dedicated fleet including Mahindra Bolero, Mahindra KUV100, TATA Safari, Honda Mobilio, and GLE 300.

Key Clients

PSU Sector

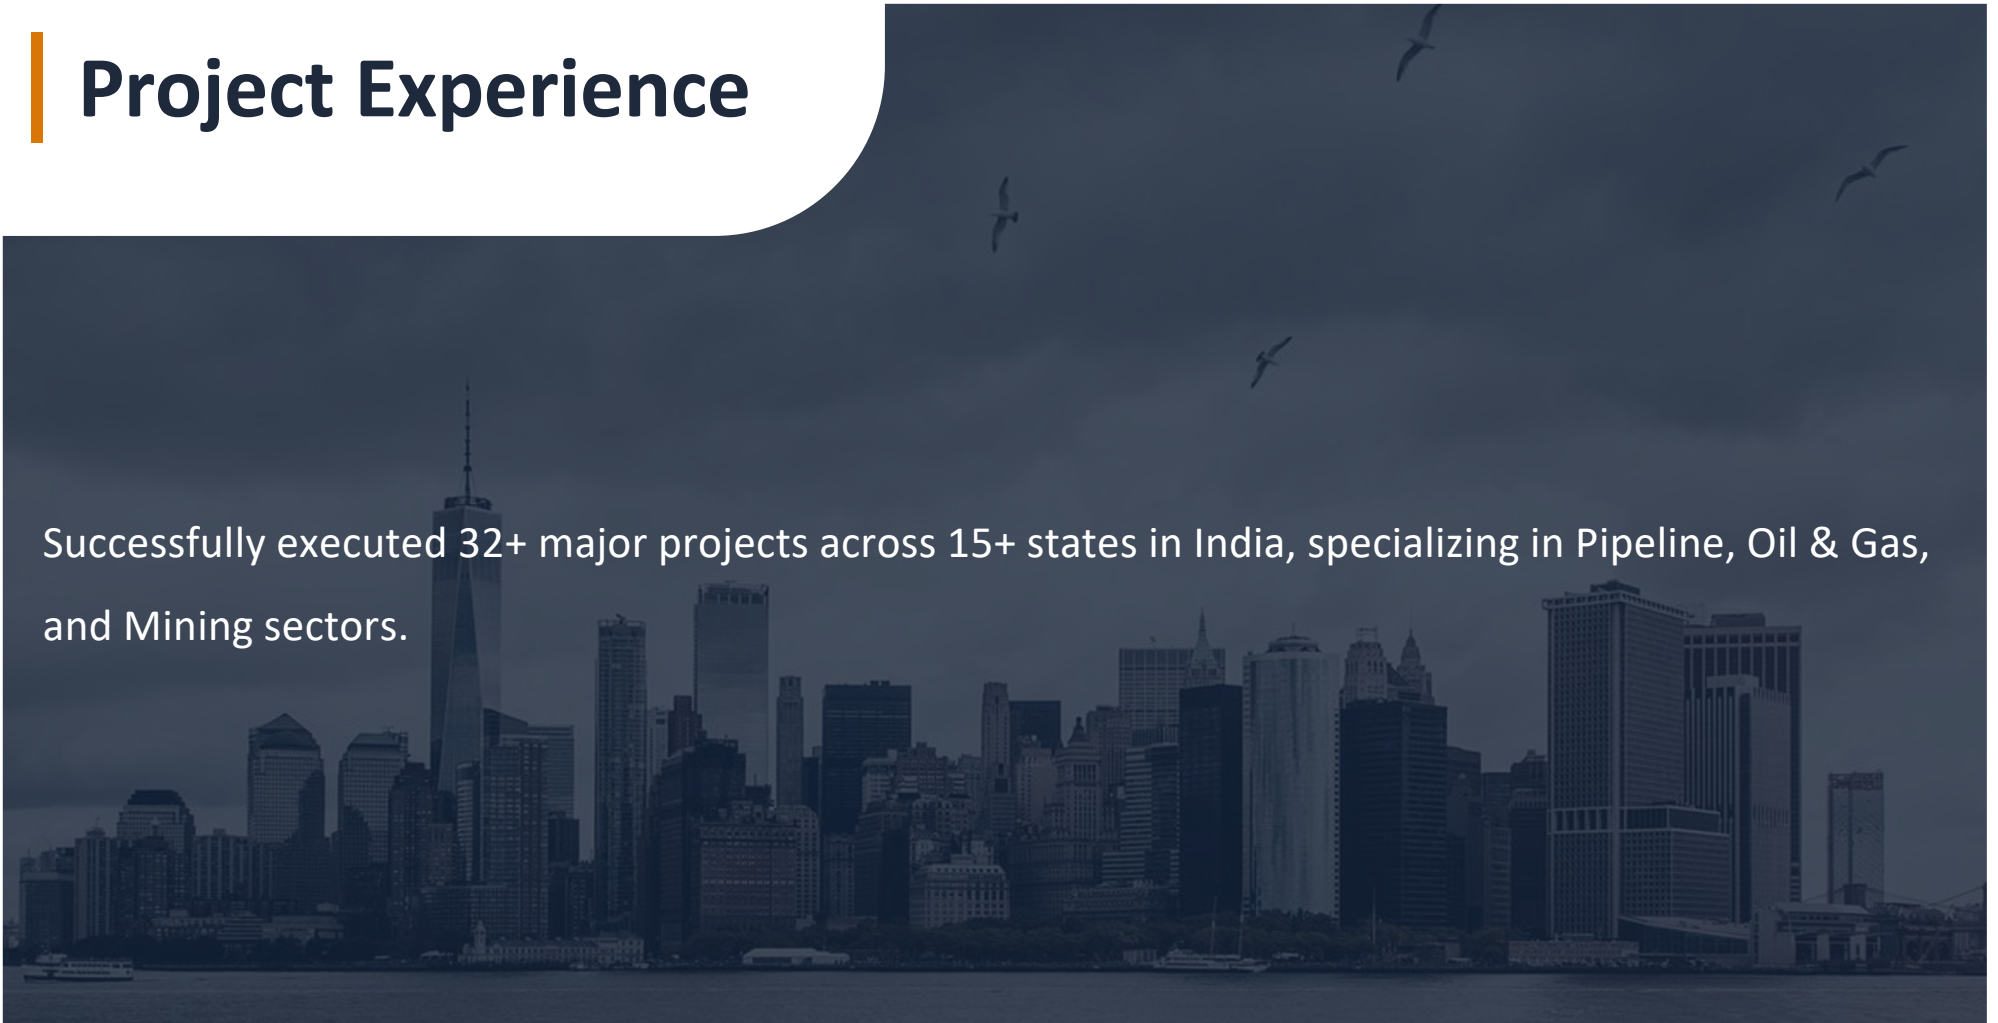

ONGC, GAIL, IOCL, BPCL, HPCL, IHB

Private Sector

JSW, Kalpataru, Corrttech, ACE Pipeline, IRM

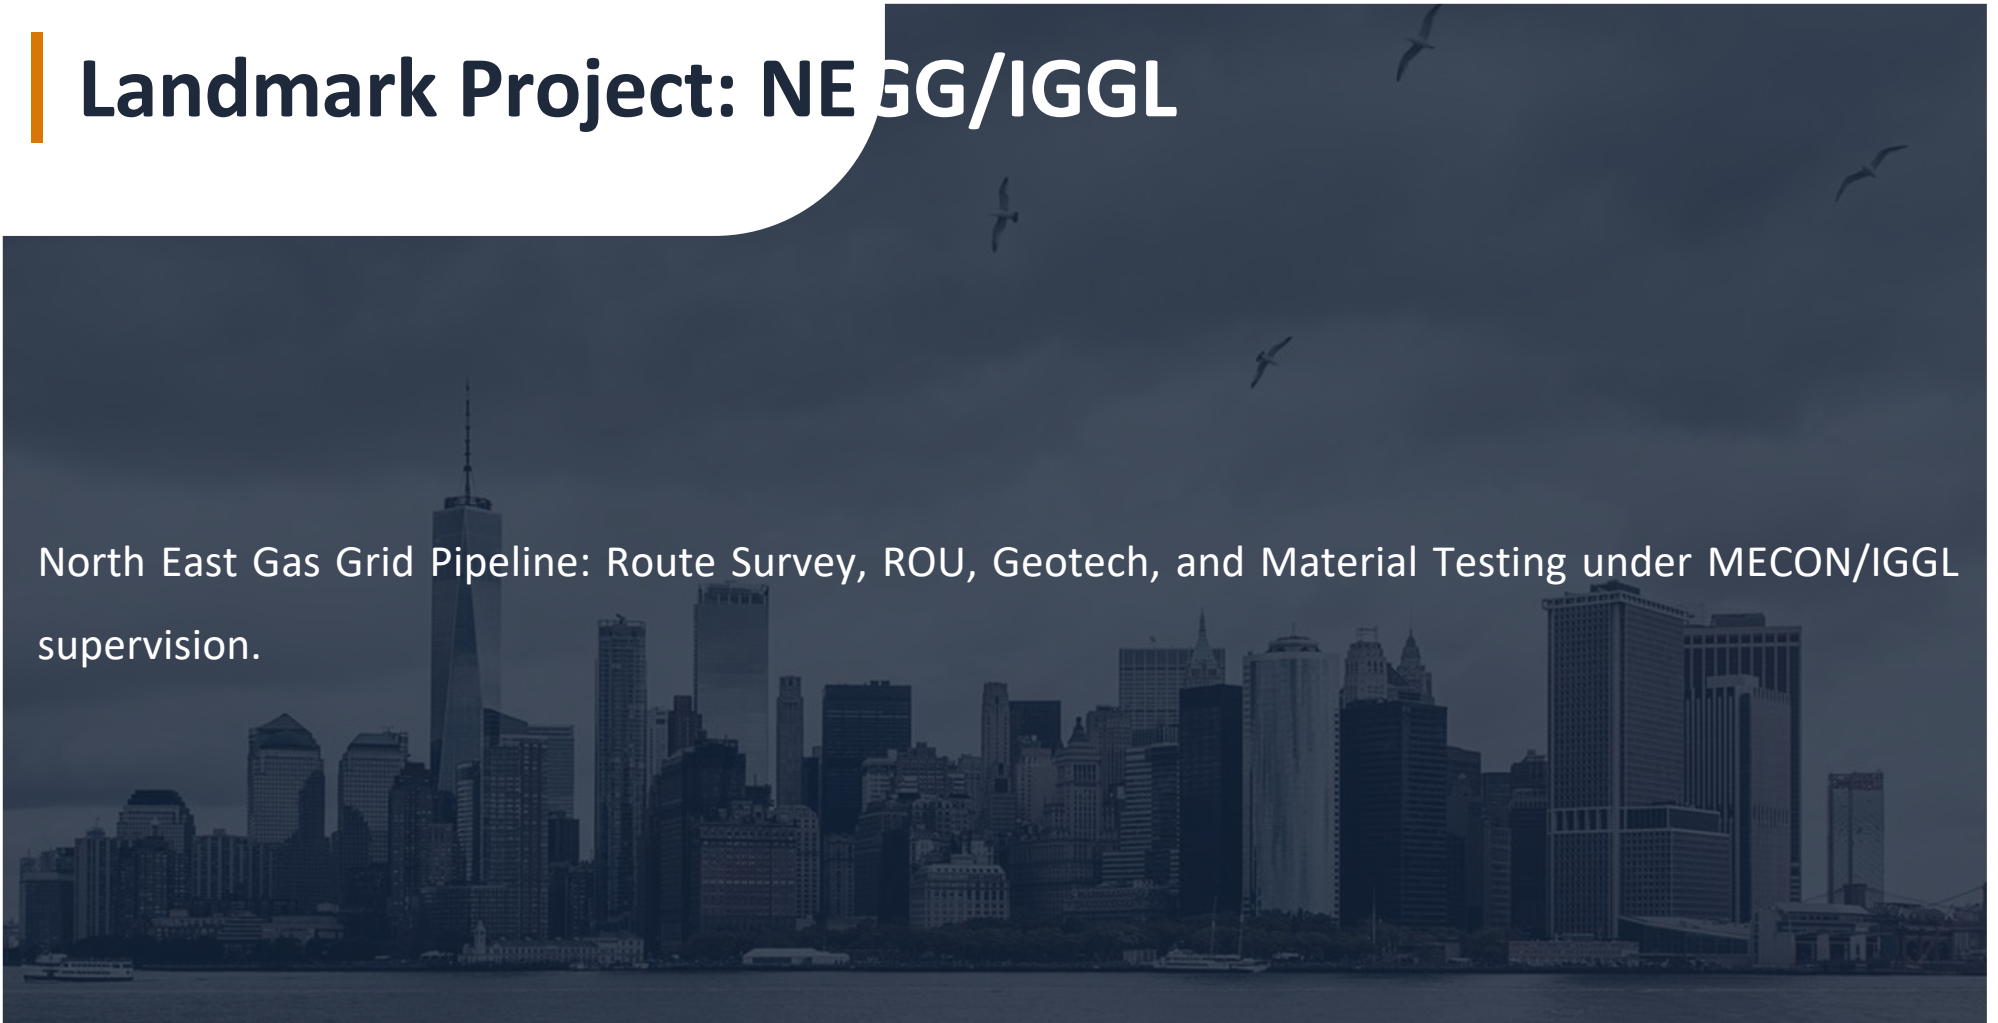

Project Experience

Successfully executed 32+ major projects across 15+ states in India, specializing in Pipeline, Oil & Gas, and Mining sectors.

Landmark Project: NEGG/IGGL

North East Gas Grid Pipeline: Route Survey, ROU, Geotech, and Material Testing under MECON/IGGL supervision.

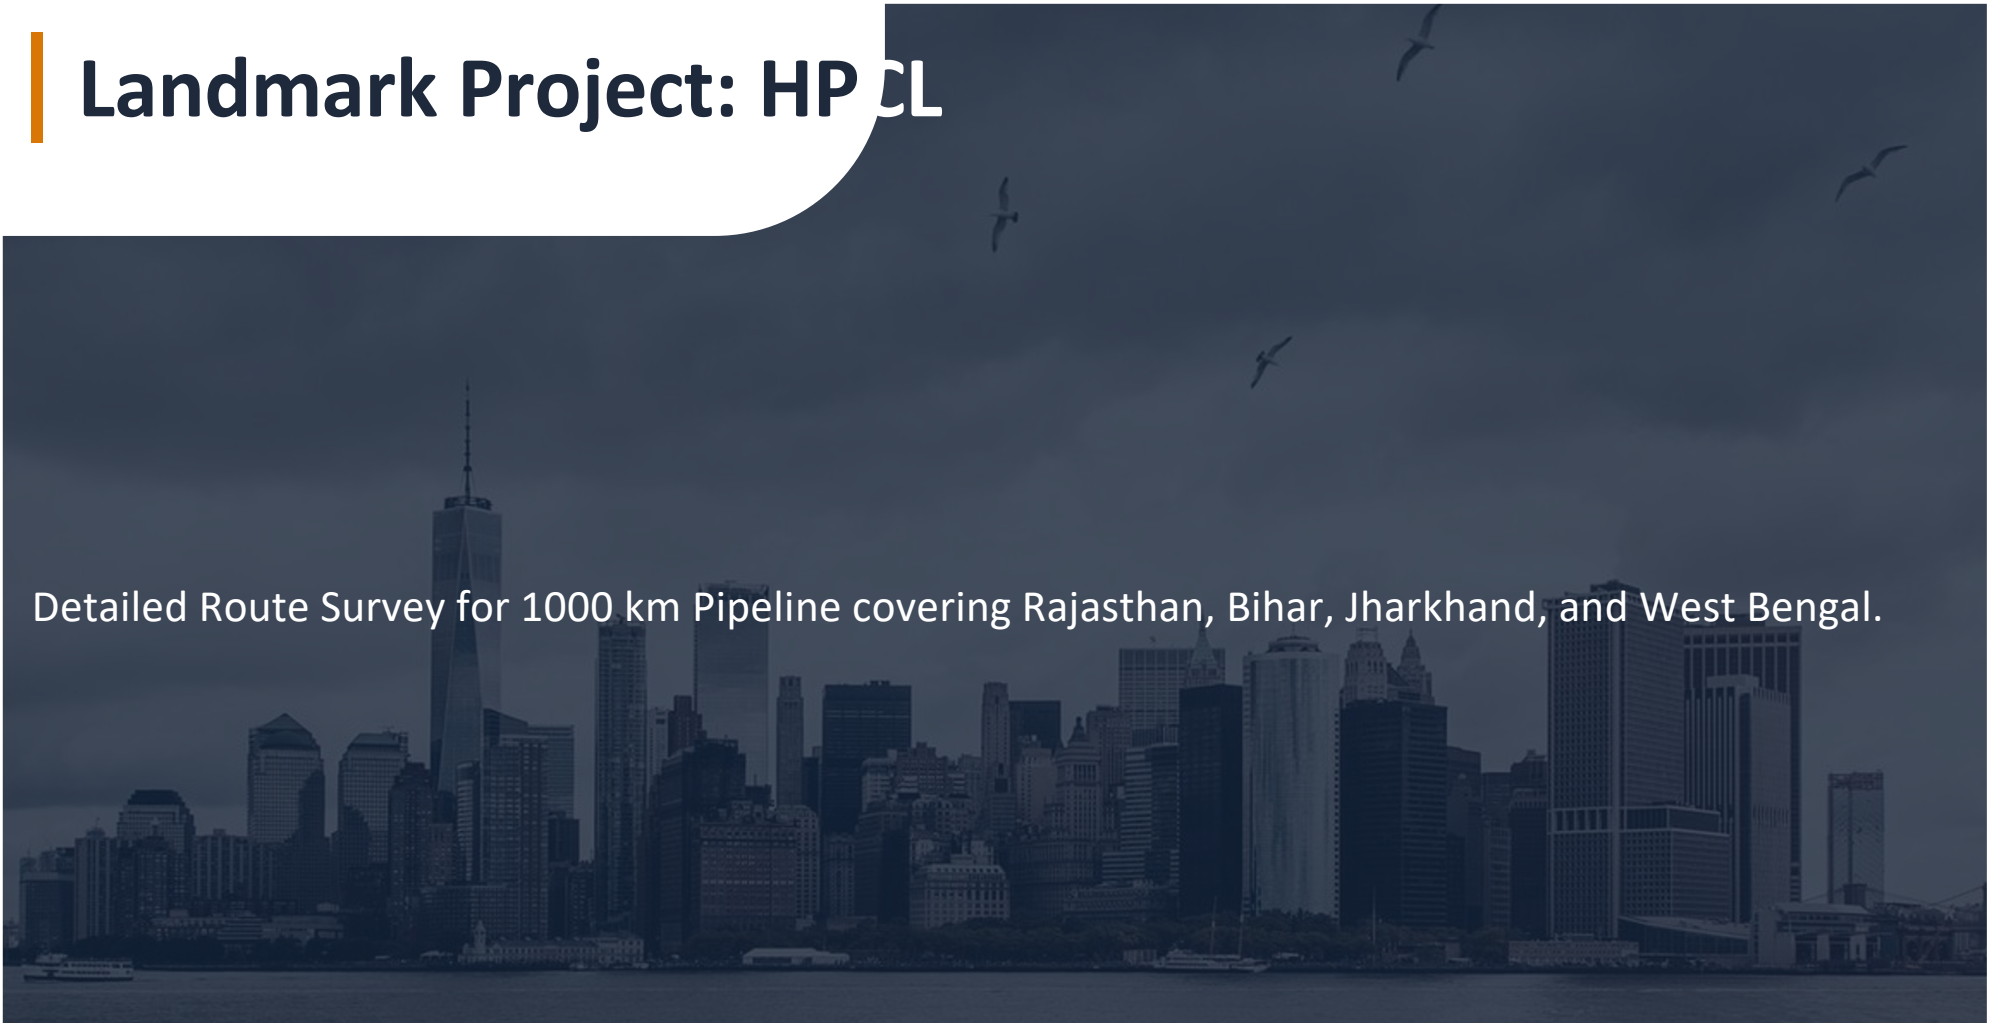

| Landmark Project: ONGC

CBM Asset Bokaro & Jharia: Land Acquisition, Drill Site Facilitation, and Stakeholder Management.

| Landmark Project: HPCL

Detailed Route Survey for 1000 km Pipeline covering Rajasthan, Bihar, Jharkhand, and West Bengal.

| Landmark Project: HDD

Mahanadi River HDD Crossing: Hydrological, Geotechnical & Scour Analysis for NRL/EIL project.

PAN India Footprint

Active projects in: Gujarat, Assam, Odisha, West Bengal, Jharkhand, Bihar, Rajasthan, Kerala, TN, AP, Karnataka, Maharashtra, Chhattisgarh.

Why AIMN Projects?

- One-Stop Infrastructure Support
- PSU & Government Track Record
- Advanced Tech & Equipment
- Time-Bound Delivery
