

AIMN PROJECTS PRIVATE LIMITED

Company Profile

Precision land survey, GIS, and statutory engineering services for India's infrastructure sector.

About AIMN Projects

AIMN Projects Private Limited is a Vadodara-based engineering consultancy delivering land survey, GIS mapping, right-of-way acquisition, statutory clearance coordination, and geotechnical investigation services to infrastructure clients across India. Our in-house field teams and licensed surveyors support highway, railway, industrial, and municipal projects from feasibility through statutory approval.

Core Disciplines

Land, Soil & Survey · CAD & GIS Development · Land & ROU Acquisition · Statutory Clearances · Geotechnical Investigation · Digitization & Scanning.

Why Clients Choose Us

Every field team is directly employed and trained by AIMN — not subcontracted — keeping accountability in-house from data capture through final report delivery. Our documentation is structured to the formats required by NHAI, state PWDs, and railway/PSU clients, reducing back-and-forth at approval stage.

Track Record

480+ projects delivered across 18 states, supported by a team of 120+ engineers and surveyors with 15 years of combined field experience.
